

2022 PT Games Basketball Rules and Player Card Update

The 2022 Edition of PT Games Basketball contains one major upgrade/change to the rules of play. Instead of 2 rolls to determine to 'Ball Handle' and 'Which Shot' these have been combined into one action. The SL (Shot Likley?) step has been removed. This should eliminate 60+ dice rolls per game.

The actual game mechanic changes are noted below from Page 4 of the Rules. No other actions are required.

After determining the ball handler, throw all three dice. The first dice you will look at are the 2d10. This is the Which Shot/'Ball Handle' roll.

2.20 Which Shot?/Ball Handle

Refer to the appropriate range on the player card; 2 ptI,2ptJ, 3pt, Pass, TO, OF/DF, or Def. Certain cards may contain only 2pt, 3pt, shot types. use the same process.
